CAREER OBJECTIVE

Aspiring Software Developer with a strong foundation in full-stack web development and problem-solving. Skilled in building responsive web applications using modern technologies such as JavaScript, React.js, Node.js, Express.js, and MongoDB. Seeking a Software Trainee opportunity to contribute to real-world projects while continuously enhancing technical and collaborative skills.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), Python

Frontend: HTML5, CSS3, Tailwind CSS, React.js, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, SQL

Tools: Git, GitHub, VS Code

Core CS: Data Structures & Algorithms, OOP

INTERNSHIP EXPERIENCE

Web Development Intern

Genz Educating Wing | Nov 2024 – Jan 2025

Developed responsive web apps and improved performance.

PROJECTS

AI-Based Ticketing System - (Python, FastAPI, SQLite, React.js)

- **Workflow Automation:** Developed an intelligent help-desk ticket management system featuring automated ticket classification and issue prioritization based on logic-driven back-end automation.
- **Support Diagnostics:** Built a comprehensive data analytics dashboard to visualize ticket trends, real-time priorities, resolution statistics, and user account activities.
- **Tracking & Status Operations:** Implemented live real-time status tracking to improve ticket handling efficiency and minimize pipeline bottlenecks.

Mobile Processor Hub - (Web Application — React.js, Tailwind CSS, JavaScript)

- **Data & Interaction Analysis:** Implemented interaction and query tracking mechanisms to analyze user behavior and optimize system performance.
- **Efficient Data Handling:** Structured complex relational dataset handling to ensure smooth, high-speed search execution and query processing.
- **Responsive Architecture:** Designed a fluid, cross-platform interface ensuring accessibility across different desktop and mobile operating environments.

ForgeMobile - (MERN Stack, React.js, MongoDB, Gemini AI)

- Built a full-stack web platform for smartphone component customization and compatibility testing.
- Developed an AI-driven recommendation engine for performance, thermal, battery, and hardware compatibility analysis.
- Implemented JWT authentication, build saving, public sharing, dynamic pricing, and cloud database management.
- Created responsive UI with live build preview, guest mode, and PDF export functionality.
